CHEMICAL SPECIALTIES

ABOUT ISALTIS

With the aim of forming a fine chemicals group to serve the life sciences and industrial markets, Isaltis was created in 2011 with the acquisition of 2 existing production sites :

- **Givaudan-Lavirotte** – Lyon, Rhône
- **Bernardy** – Thénieux, Cher

These 2 production sites have over 70 years of experience in the chemistry of alkaline and earth alkaline metals.

Since 2018, Isaltis belongs to MACCO ORGANIQUES, a subsidiary of LALLEMAND group (Canada).

ISALTIS operates on a global scale, exporting more than 80% of its production to more than 50 countries located on the 5 continents. ISALTIS group is also a strong representative of the **french know-how**, and is part of the French Fab community, promoting the local industrial network and its attractiveness.

ISALTIS and MACCO together are world leader in the production of high purity minerals.

OUR KNOW-HOW & SERVICES

- > Custom Powder premix
 - > Powder shaping: mixing, milling, sieving
- > Customized mineral salts
- > Hydration level mastering
- > Oxidizers handling

OUR MARKETS

- > Glass
- > Water treatment
- > Paints and Coatings
- > Plastic and rubber
- > Pyrotechnics
- > Chemical reagents
- > Ceramics
- > Textile and Leather
- > Catalysis and automotive
- > Metallurgy

OUR VALUES

- > **CONFIDENCE**
- > **COOPERATION**
- > **COMMITMENT**

Our mission :
Be a reliable supplier
for our customers

BERNARDY RANGE

Beside the production of organic minerals destined to the Life Sciences markets (and especially nutrition, cosmetics and oral care), BERNARDY plant manufactures a wide range of minerals for industrial applications. Based on alkali and earth alkaline metals (Potassium, Sodium, Magnesium, Strontium, Barium) and other metals such as Iron, Zinc and Aluminium, the combination with several type of anions is of interest in many industrial applications. BERNARDY is able to propose commercial quantities ranging from kilograms to several hundreds of tons per annum.

BERNARDY plant is respecting the **Responsible Care** charter. All products of the industrial range are **REACH** registered. BERNARDY also have the equipment, knowledge and flexibility to offer

- **Customized** mineral salts
- **Blending** of powders (existing or tailor-made premixes)
- **Homogeneization/shaping** of powders

Do not hesitate to contact our sales team for more information.

OUR MINERAL SALTS RANGE FOR INDUSTRIAL APPLICATIONS

	Aluminium	Ammonium	Barium	Iron	Magnesium	Potassium	Sodium	Strontium	Zinc
Acetate	•		•					•	•
Citrate					•				•
Chloride								•	
Hydroxyde								•	
Lactate	•				•				•
Nitrate			•			•		•	
Oxalate		•		•	•	•	•	•	
Peroxyde			•					•	
Phosphate									•
