

Advanced skincare **Biotechnology,** where beauty comes naturally

Prebiotics, probiotics, and postbiotics
for beautiful skin

Lallemand

a global leader in microbiology

Lallemand is a **global leader** in the development, production and marketing of yeast, bacteria and specialty ingredients.

Through its specialty activities, Lallemand uses **microbiology**, **probiotics** and knowledge of **microbiota** to enhance the **health & nutrition** of humans, animals and plants. Our associates and research laboratories listened to health professionals and research institutes to analyze their needs and offer them original solutions. Today, Lallemand is present worldwide through plants, distribution centers and commercial offices.

Lallemand cosmetics

Lallemand has recently decided to invest in cosmetics to develop microbiological solutions for current and future challenges. **Our guideline? Enhance beauty through microorganisms from IN & OUT.**

INNER BEAUTY

Lallemand works side-by-side with cosmetic brands to develop customized **nutracosmetics** with **probiotic formulations**.

OUTER BEAUTY

Lallemand Cosmetics is developing **topical ingredients** derived from **bacteria** and **yeast**.

Lallemand company

- **Global leader** in microbial fermentation
- Founded in Montreal by Fred A. Lallemand at the end of the **19th century**
- Yeast production started in **1923**
